INTRODUCTION
This is a 4 months evening (6 pm to 9 pm, two days a week) post-graduate level advanced program that provides the necessary knowledge, skills and capabilities to individuals and organizations to effectively manage and develop human resources. It is a core program for HR and Quality Professionals and/or persons working in allied fields, e.g. production management, and administration. The candidates will develop capabilities to manage people and change for improving quality and productivity of their organizations with a much broader vision and skills of organizational development.

OBJECTIVES
✓ Develop professionals who understand human resource in detail and are capable of taking on the challenges of developing organizational vision, policies and procedures
✓ Create the core capabilities to implement HR policies and practices
✓ Provide a professional credential to Professionals

BENEFITS
This Professional Certificate is important for the practical growth of our public and private organizations. It provides solutions, methods and techniques to raise HR standards to a world-class level. Highly capable practitioners are produced who can implement company-wide HR Policies and Programs. A lack of such capabilities results in a large number of deficiencies in organizations. Companies who want to establish the professional function of Human Resources must consider educating their managers through this certificate course.

BODY OF KNOWLEDGE
The certificate course contains seven Modules covering:

WHO SHOULD PARTICIPATE
Professionals, managers & consultants. It is also useful for fresh graduates who want to develop a career in the field of HR Management.

EXAMINATION
In addition to various assignments, there will be a final professional examination of four hours duration. This will qualify the participants to an international compatibility level.

ENTRY REQUIREMENTS
Bachelor’s degree with good result. Work experience will be given preference.
