INTERNAL QUALITY AUDITING
HOW TO MAKE IT A VALUE ADDED ACTIVITY

VALUABLE FOR DIRECTORS, QA MANAGERS, PRODUCTION MANAGERS,
AND INTERNAL QUALITY SYSTEM AUDITORS

Introduction

Internal Quality Auditors are meant to measure and ensure an effective implementation/maintenance of quality management system in any organization. However, for an effective diagnosis, the internal quality systems auditors must be qualified and competent. This training program is designed for organizations to revive and improve the quality of their internal quality systems auditors. Organizations can benefit a lot from ISO 9001:2008 quality management system provided effective internal audits are conducted. The course is designed to introduce ISO 9001:2008 requirement and their interpretation in different industrial and service sectors.
