Quality Movement in Pakistan

CSMP

## Objectives and scope

The aim of this course is to provide all the fundamental knowledge, observations and hands-on good practices of effective security management techniques. The scope is limited to corporate sector and organizational security measures.

## Useful for

1. Security officers in the corporate sector
2. Admin officers
3. Top management for general awareness to security measures
4. Security management consultants and auditors

## Teaching Strategies

This is a professional course and will involve a number of higher level teaching methodologies. The course is spread over four months to allow inter-session study. In this respect participants will have to carry out timely study, investigations, and field study assignments to grip the subject. Discussions in the class are focused on the key points, critical thinking, field observations, experience sharing of fellow professionals and build professional maturity.

## Objectives and scope

The aim of this course is to provide all the fundamental knowledge, observations and hands-on good practices of effective security management techniques. The scope is limited to corporate sector and organizational security measures.

## Final Project

The participants will be required to work on real life security management gap analysis of their organizations followed by providing effective solutions and roadmaps. The projects will be of practical nature and should be completed within the stipulated time frames. A project report will be submitted in accordance with the laid down criteria format and coverage.
