Quality Movement in Pakistan

CSQP

Certified Software Quality Professional

Introduction

This is a 4-month weekend based program that provides a professional foundation in the field of Software Quality Management. It is a core program for Software Professionals and/or persons working in allied fields, providing thorough in-depth coverage. The qualified participant will be able to effectively perform Quality Control, Quality Assurance and Quality Management in their organizations and departments. It is a fundamental program for the professionals of every Software House or those working in Software/IT Departments. In order to ensure international compatibility of the course material, the body of knowledge is compatible to the Certified Software Quality Engineer (CSQE) of the American Society for Quality (ASQ), for which this course also prepares.

Intended Learning Outcomes

1. To develop software professionals who understand Quality Assurance & Management in detail and are capable of ensuring excellent Quality in software products.
2. To create the core capabilities to implement software Quality Management tools.
3. To provide professional credential to Software professionals.

Admissions

Eligibility for admission in this program is graduation with 14 years of study in any discipline. Participants with relevant experience will be given preference.

Award of Certification

Qualified participants will be awarded with a Certification/ diploma upon completion of course material, qualifying the exam, assignments/ quizez and successfully completing the assigned project.

Course Material

Course material, class notes and instructor slides will be provided to the participants in soft and hard form.

Teaching Strategies

This is a professional course and will involve a number of higher level teaching methodologies. The course is spread over three months to allow inter-session study. In this respect participants will have to carry out timely study, investigations, and assignments to grip the subject. Discussions in the class are focused on the key points, create critical thinking, share experiences of fellow professionals and build professional maturity.

Quality Movement in Pakistan

CSQP

Your best choice to become a Software Quality Professional

Project

The participants are required to submit real life projects on selected topics and tools, preferably from their organizations. The projects will be of a practical nature and should be completed within the stipulated time frames.

Faculty

The faculty is derived from a pool of qualified practitioners and academicians with sound track record and expertise in the relevant field.

Course Contents

Module 1: Capability Maturity Model Integration – CMMI:

Introduction to CMMI, Overview of CMMI Levels/ Requirements, Implementation & Assessment, Exercise / Case Studies.

Module 2: Software Metrics & Measurement:

Measurement Theory, Analytical Techniques, Software Measurement, Project Metrics.
Exercise (SRS).

Module 3: System & Software Engineering Processes:

Software Requirement Engineering, Software Requirement Management, Test Procedures, Software Requirement Specifications (IEEE SRS 830), Exercise (SRS).

Module 4: Software Testing, Verification & Validation:

Basic Concepts, Software Development Plan, Test Planning, Test Procedures, Test Products (IEEE 829), Exercise (Test Plan, Test Cases), Software Automated Testing.

Module 5: Analysis & Reporting Techniques:

Basics of Statistics, Metric reporting tools, Kiviat chart, Pareto Diagram, Cause & Effect Diagram, Histogram, Control Charts, Scatter Diagram, Problem solving tools, Route Cause Analysis.

Module 6: Software Configuration Management:

Configuration Infrastructure, Identification, Library processes, Configuration, Configuration Control & Status Accounting, Configuration Audits, Product Release and Distribution, Software Configuration Management (IEEE 828) – I & II.

Module 7: Program & Project Management:

Project Planning (IEEE 1058), Implementation, Tracking & Risk Planning.

Module 8: Strategic Quality Management:

Quality Management Strategies, QM Frameworks, Departmental Roles.

Module 9: Lean Six Sigma:

Fundamentals of Lean Six Sigma, Lean Six Sigma methodology.

Module 10: ISO 9001:2015 QMS:

ISO 9001:2015 Implementation, ISO 9001:2015 Implementation & Internal Auditing.

PIQC - Center for Excellence

Leading Institute in Pakistan providing academic programs, professional diplomas & certifications, short courses and corporate development in Quality Control (QC), Quality Assurance (QA) and Total Quality Management (TQM), Human Resource Management (HRM) and Health, Safety and Environment (HSE). Celebrating the 25th year of its establishment, PIQC vision is to see Pakistan a hallmark of Quality in the national and global environments. With its leadership and team of specialists, it has provided academic education and professional courses to more than 40,000 students and professionals. It is the pioneer and most authentic source for running International Six Sigma and Lean Manufacturing programs, including Six Sigma Yellow Belt, Six Sigma Green Belt and Six Sigma Black Belt in Pakistan.

PIQC has professional collaborations and linkages with various local and foreign organizations including Hamdard University, Superior University, NED University of Engineering and Technology, IQCS Certification, Singapore Quality Institute International (SQII), American Society for Quality (ASQ), and Quality and Productively Society of Pakistan (QPSP)

Degree Programs	Professional Diploma	International Certifications	Corporate Courses	International Conventions
