CPD Point for Professional
Engineers Registered with PEC

Introduction

PIQC Institute of Quality – Lahore, in collaboration with Blue Peaks Consulting – Islamabad, is offering a comprehensive Risk Management Professional (PMI-RMP®) training program. This program is designed for project and risk management professionals who wish to strengthen their expertise in identifying, analyzing, and managing project risks effectively across diverse industries.

The course provides participants with a proven and practical body of risk management knowledge and tools aligned with PMI® standards, enabling them to demonstrate professional mastery in real-world project environments. In addition, this training offers 35 PDUs, which significantly support candidates in their preparation for the PMI-RMP® International Certification Exam.

Through this course, participants will develop the skills required to minimize threats, capitalize on opportunities, avoid costly project failures, and enhance decision-making capabilities. The training is highly interactive and includes hands-on exercises, exam-focused practice questions, case studies, and study aids, ensuring strong exam readiness and improved professional competitiveness in the field of project risk management.

Learning Objectives/ Outcomes

- Develop a comprehensive risk management strategy.
- Identify project risks systematically
- Perform qualitative and quantitative risk analysis
- Plan and implement effective risk responses
- Monitor, control, and close project risks
- Prepare confidently for the PMI-RMP® certification exam
